## MANY BELIEVED TO BE DEAD IN CRASH IN PARIS TUNNEL

### HEAT HANDICAPS FIREMAN IN WORK

Sixteen Bodies Have Already Been Recovered—Many Thought to Have Been Burned to Death—Twenty Seriously and 53 Slightly Injured Have Been Recovered

(By The Associated Press)  
**BULLETIN**  
PARIS, Oct. 6.—Seventeen of those injured in the tunnel wreck have died in hospitals, according to the Havas Agency, bringing the total number of dead in the tunnel wreck to 33. Exploration of the seventeen burned cars has not yet been possible and it is feared that they contain additional victims.

(By The Associated Press)  
**BULLETIN**  
PARIS, Oct. 5.—Additional bodies found in the wreckage by the firemen bring the total known dead to sixteen.

PARIS, Oct. 5.—Many persons are believed to be dead and burning in the wreckage of a rear-end collision of two suburban trains in the half mile tunnel leading to the St. Lazare railroad station from which five bodies already had been recovered at 9 o'clock this evening. Twenty seriously injured persons and 53 slightly injured also had been recovered.

Seventeen coaches were burning and firemen, almost helpless, were cutting a hole thru the roof of the tunnel thru the pavement of Rue De Rome, hoping to create an upward draft in order to allow the smoke and gas to escape. Both trains were filled with homeward bound commuters and authorities say that anyone remaining in the tunnel is almost certain to be dead.

## BRUNDAGE MAKES SARCASTIC REPLY TO THE GOVERNOR

### Says Duty of Execu- tive to Receive R. R. Payment

(By The Associated Press)  
SPRINGFIELD, Ill., Oct. 5.—Continuing the latest public quarrel between them—the controversy over responsibility in accepting semi-annual reports and payments from the Illinois Central railroad on the railroad's charter obligations—Attorney General Brundage today replied to Governor Small whose statement last night was an answer to an article in the Chicago Tribune and a new attack upon the attorney general.

The attorney general's statement was full of sarcasm and after several paragraphs of political sparring said:

"The law makes it the duty of the railroad company to make a semi-annual report of its gross receipts, upon which seven per cent is due the state and a copy of such report is required, by law, to be sent to the governor who has the power to question its accuracy.

"Unfortunately for the state, the acceptance of the report unquestioned is binding upon the state unless fraud or mistake can be affirmatively shown and the supreme court has so held.

"During its incumbency as attorney general these semi-annual reports have been sent regularly to the attorney general for the drafting of an acknowledgment so as not to estop the state from any future recovery, should the pending litigation against the Illinois Central System result in a greater measure of accounting.

"Governor Lowden always took this precaution but the semi-annual report, made last June was not submitted to the attorney general and Governor Small seems to be in total ignorance that such a report was made to him or that any duty under the law, rested upon him."

## Disastrous Fire At Reformatory

### PRESIDENT IS CONFERRING ON TAX REVISION

Present Tangle Discussed With Republican Leaders

(By The Associated Press)  
WASHINGTON, Oct. 5.—The tangle in congress over tax revision legislation was given the attention of the administration today as a succession of conferences between President Harding and senate and house leaders. What position the president may take regarding substitution of a sales tax for the miscellaneous excises in the pending bill was not disclosed, those who saw Mr. Harding declaring that he was keeping an open mind on the subject for the present.

Meantime groups in the senate went forward with conferences on the whole subject and opponents of the pending measure continued their assaults on it.

Senator LaFollette, of Wisconsin, a Republican member of the finance committee, filed a minority view declaring that he was in general accord with the Democratic report insofar as it criticized the proposals of the majority to reduce the super-taxes upon large individual incomes, to repeal the excessive profits tax and the capital stock tax to retain the transportation taxes and to greatly aggravate the existing disparity between corporate and individual and partnership taxes.

He added, however, that he felt the recommendations of the minority would do little more than palliate some of the monstrous inequities of this bill without curing any of its fundamental evils.

"There is nothing to be gained by the forced and inconsiderate enactment of the present bill," said the minority report. "The bill affords no relief to the country. There will be no reduction effective during this calendar year—nine months after the advent to full power of the party which promised immediate relief from oppressive war taxes."

"Practically every change in the rates or repeal of present taxes is postponed until January 1, 1922.

**Purpose of Majority**  
"The purpose of the Republican majority seems to have been centered upon the exemption of millionaires from the higher surtaxes and the exemption of corporate interests and monopolies from the payment of proper taxes upon profits. In pursuit of this purpose the committee has divided the income tax payers of the country into two classes; those who have incomes greater than \$66,000 a year and those who have incomes less than \$66,000 a year.

"There are 11,077 millionaires in the first class and 5,321,683 people in the second class. The committee in its solicitation for wealth has accorded these 11,077 millionaires very substantial relief by the repeal of the higher brackets of the surtaxes while the 5,321,683 ordinary taxpayers have been given no substantial relief."

The Democrats gave notice that they would offer amendments to the bill largely increasing the surtax rates on incomes up and above \$500,000; reducing the normal tax on incomes below \$15,000; limiting the exemptions allowed heads of families to incomes below \$20,000, and repealing the tax on freight, passenger and Pullman transportation.

**MANY CRIMES LAID TO KU KLUX KLAN**  
Beaumont, Texas, Oct. 5.—More than two hundred crimes have been committed in the name of the Ku Klux Klan in Texas, Judge E. A. McDowell said in his charge to the grand jury here Monday, calling upon it to investigate activities of the Klan in Jefferson county. He did not ask the jury to blame the Ku Klux Klan for all crimes committed in its name.

### SAYS FARMING OUT OF EX-SERVICE MEN CRIME AND SLAVERY

Director Forbes of Veterans Bureau Makes Report on the Present System of Federal Vocational Training—Too Much Theory and Not Enough Practical Method He Says

(By The Associated Press)  
WASHINGTON, Oct. 5.—The present system of federal vocational training contains "decidedly too much theory" and needs the injection of practical methods, Director Forbes of the Veterans Bureau declared in a report to President Harding made public today and covering his recent country wide inspection of hospitalization and vocational training facilities.

In making public the report Colonel Forbes characterized the system as "unmistakably and absolutely wrong," and expressed doubt whether "very many men have gone back to their respective communities as wage earners and as assets."

"We have farmed men out under this system," the director added in commenting on the report. "It is nothing short of crime and slavery to put men into some of the places they have been put. I am opposed to the sweatshop system and I do not propose to let more of the former service men be exploited by mushroom houses that have sprung up merely to exploit the soldiers and get the government's money."

Government hospitalization of former service men was said by Colonel Forbes in his report to be nearly equal to the needs, except in certain localities such as California.

Colonel Forbes reiterated to the president the belief that a governmental vocational university for former service men and women would in a measure solve the problem.

Orders were given in Chicago the director said, for the discontinuance of training in certain schools and institutions having contracts with the government because they were not providing the type of instruction which the beneficiaries had a right to receive. His survey there, he said, had disclosed several instances where those under training were being exploited.

The morale in the hospitals was good, Colonel Forbes declared, adding that he believed proper treatment was being administered.

The transfer of Camp Ross of the Great Lakes Naval Training Station to the bureau was urged but its opposition by the navy department was suggested because of its proximity to the training station. Steel buildings at the camp should accommodate three hundred patients, he said.

The Speedway hospital should be completed immediately, he added.

**GARAGE EMPLOYEE RECEIVES INJURY**  
C. H. Williamson, who is employed at O'Donnell's garage, had the misfortune yesterday to have his left eye injured while he was working under a car. He was replacing a crank case, when it slipped because of its greasy surface, and fell on him, one corner striking his eye. The injured optic will probably be saved, and be ready for use again in two or three weeks, Dr. A. L. Adams is attending the case.

**WANTED TO LEARN HOW TO WRITE LOVE LETTERS**  
Chicago, Oct. 5.—Myron F. Wilkins, 20, a substitute clerk in the post office, wanted to learn how to write love letters to his sweetheart. He was bound over to the federal grand jury today under \$1,000 bonds for opening twenty letters addressed to young women in his search for samples.

**WANTS MORE RELIGION IN BUSINESS WORLD**  
Chicago, Oct. 5.—An appeal for more religion in business was voiced by Professor Harry F. Ward of the Union Theological Seminary, New York, to ministers of the Rock River conference today.

**W. C. T. U. MEETING**  
The W. C. T. U. of Jacksonville will hold a meeting at the public library next Monday afternoon at 2 o'clock. All members are especially requested to attend as an election of officers will be held.

### CARL MAYS WINS FIRST GAME FOR THE AMERICANS

Pitches Great Game Allowing Giants but Four Hits

(By The Associated Press)  
NEW YORK, Oct. 5.—Carl Mays with one of his masterful exhibitions of box work, pitched the Yankees to a well earned victory over the Giants in the first game of the 1921 world's series at the Polo Grounds today. The blonde American League twirler of the underhand delivery held the National Leaguers runnersless, the final score being:

New York Americans 3; New York Nationals 0.

It was not without some fine fielding behind Mays, some pretty work with the stick and clever running on the bases that the Yanks were able to get the jump in the first all-New York series ever played for the world baseball honors.

Babe Ruth king of the long distance clouters, although he didn't make any home runs was in there with a timely hit and some inspiring and heady coaching on the lines, Mike McNally, the Yanks' third baseman, rated as one of their weakest hitters, contributed a double which blossomed into a run and jumped into a niche in the world series hall of fame by tearing off a neat steal of home in the fifth inning for the second run of the game.

The Yankee victory was won against a determined Giant defense, the sterling feature of which was a well pitched game by Phil Douglas, the Nationals' spitball star. Douglas had the slugging Ruth at his mercy after the fourth inning, striking the Babe out twice, amid roars of approval from the Giant rosters.

Douglas left the game in the eighth inning when Earl Smith, pinch hitter went to bat for him and flied out to Red Barnes. Barnes pitched the ninth inning for the Giants and was clouted for two hits.

In the field, Ruth played well getting four of the five outfield putouts. In the third inning he gave his admirers a heart pang when he caught Douglas' high fly and let it bounce out of his hands. He managed to recover the ball however, before it could fall to the ground. He was cheered every time he came to the plate and every time he caught a fly.

In the Giants' lineup, Frank Frisch their stellar third baseman ran true to his spectacular form getting four of the Nationals' five hits, one of them a triple and handling brilliantly every thing that came his way.

**Giants Play Heady Game**  
As a whole the Giants played a heady, consistent game, except that the usually reliable Bancroft at short was a little unsteady at times—albeit in no instance to the detriment of his team. Their inability to hit Mays however, was fatal together with the unexpected dash shown by the Yankees on the base paths, the latter literally out of his control beating the Giants at what was supposed to be their own game.

Undoubtedly from the standpoint of the more than 20,000 spectators in stands and bleachers the appearance of Babe Ruth at the plate was the big attraction of the afternoon. As has been said, he went home-runless for the day, his only hit being the first inning blow, a slashing single to center—that sent Miller home with the first Yankee score. Ruth on this occasion went out himself in a fast double play. On his second trip to the plate he received a base on balls in the sixth and eighth he struck out.

"Bob" Meusel, the Yankee's heavy hitting right fielder another local point of popular interest did something toward living up to his reputation as a long distance clouter by finding Phil Douglas for a hit in the sixth inning which would have been a triple but for a slip on the part of the Yankee member of the Muscles a break which if the game had been closer might have done his team an extremely ill turn. "Bob's" hit scored Roger Peckinpaugh from second but unfortunately for the batter he failed to touch first in rounding that bag and was declared out while standing on third. Someone in the crowd caught the ball.

### LOSS AT MICHIGAN INSTITUTION MAY BE HALF MILLION

Troops are Called Out to Patrol Outer Wall of Reformatory—Three Prisoners Known to Have Escaped—Blaze Starts from a Soldering Lamp Being Used by an Inmate

(By The Associated Press)  
IONA, Mich., Oct. 5.—Michigan National Guardsmen and members of the state constabulary this evening were patrolling the outer wall of the Michigan State Reformatory here, where fire today destroyed all cell blocks, the administration offices, the chapel and the warden's office.

During the fire that caused a loss roughly estimated at half a million dollars, at least three prisoners escaped from the institution.

The fire still was burning tonight among the twisted iron work of the cell block and other buildings. Only the factory buildings of the reformatory escaped the blaze, being saved by the position of the wind.

The fire started at 11 o'clock this morning from a soldering lamp in the hands of an inmate who was repairing the roof of the administration building. It swept thru that part of the reformatory practically unhindered due to an inadequate water supply.

Governor Alex. J. Groesbeck, Roy C. Vandercook, head of the state department of public safety and Warden Thomas C. Burns were in consultation tonight to map plans for rebuilding the burned structures and for caring for the inmates. The 680 inmates of the reformatory went to sleep in the factory buildings tonight.

**State Troops on Guard**  
Fearing a possible outbreak among the inmates state troopers late today placed machine guns at every corner of the prison wall and other troops, each armed with a rifle, patrolled the mile long wall. The escapes today were made when a group of inmates were taken from inside the wall to help fight the flames.

As the roof of the administration building fell sending a shower of sparks over the fire fighters four of the inmates made a dash for freedom. Three of the number made their way to safety but the fourth was captured.

Poses tonight were searching the countryside for the three men who escaped. It is believed a larger number might have gained their freedom.

State officers are investigating reports that an automobile loaded with men wearing the prison gray swept out of the city while the fire was at its height. Early reports that one inmate burned to death in the fire were discounted. Reformatory officials were making a check of the inmates tonight. About 25 members of the state constabulary are on the ground and others have been ordered here.

## DOUBLE MURDER IS COMMITTED AT PRAIRIETOWN

### Man and Wife Shot by Farmer Following Quarrel

(By The Associated Press)  
PRAIRIETOWN, Ill., Oct. 5.—Albert Wieneke, aged 35 and his wife, Mrs. Mae Wieneke, aged 38, were shot and killed by Harry Lohse, aged 38, here tonight in the Lohse home, after an argument between Wieneke and Lohse, which was precipitated by a controversy regarding Mrs. Wieneke, according to a statement of Sheriff George E. Little, of Edwardsville, who was called here by neighbors. Lohse is now in jail at Edwardsville. He offered no resistance to officers.

Wieneke and his wife were found dead in the kitchen of the Lohse home, where they were killed by Lohse, in self-defense, according to his story.

When Sheriff George E. Little and Deputy Jule Blake arrived here from Edwardsville they went to the Lohse home and were admitted by Herman Weseman, a neighbor, who was talking with Lohse. No resistance was offered when the sheriff told Lohse he would have to go to Edwardsville and be jailed.

Enroute to Edwardsville Lohse told the sheriff that he and Mrs. Wieneke were in the kitchen talking when the latter's husband entered the house.

Wieneke, according to Lohse, said that Lohse had no business in that part of the house and that he had better go to his room adding that Lohse was too familiar with his wife. An argument followed, Lohse said, according to the sheriff in which Wieneke attacked Lohse with a knife, while his wife attacked him with a hammer.

Lohse said he then shot Wieneke in self-defense later being forced to shoot Mrs. Wieneke.

**Bodies at Edwardsville.**  
Edwardsville, Ill., Oct. 5.—The bodies of Mr. and Mrs. Albert Wieneke, who were shot and killed at Prairietown, by Harry Lohse tonight were brought here by the coroner and an inquest will be held at 2 o'clock tomorrow afternoon. Five children of the murdered couple were also brought here and William, age 5 was taken to a hospital for treatment for minor gunshot wounds received in the fight in which his father was killed.

**CHARLES COBB IN JERES FINGER**  
Charles Cobb, an employee of the C. P. & St. L. shops here, badly smashed his finger yesterday morning in some machinery which he was operating. Cobb, who lives at 898 Routt street, went to a local doctor and received the necessary medical attention. He will be unable to use the injured hand several days.

A magazine devoted to highway affairs declares that 90 per cent of the automobile accidents which occur are due to speeding. There need have been no extensive investigation to prove this statement.

One of the greatest needs of Jacksonville is an isolation hospital, and certainly the county or some public organization should make provision along this line. Each year, especially in the fall and winter months, the need for a hospital where contagious diseases can be cared for is especially urgent. Is it too late to take

some definite steps for this improvement this year?

At the miners' convention yesterday it was decided to boost the salaries of some of the officials about 60 per cent. But why shouldn't this be done, since the organization has in its treasury and investments about \$348,000, a very tidy sum for any organization to own.

The scandal which attached to the base ball world series of a previous year has not materially lessened interest in the national sport. Proof of this statement was readily available if you had been in West Morgan street yesterday and noted the hundreds of people watching the Courier's score board as it told the story of the first game in the 1921 series.

In Moline ground has been broken for a million dollar hotel, non-resident capitalists furnishing three-fourths of the money necessary. Why wouldn't it be possible to work out some such plan for Jacksonville?

If a firm or individuals non-residents will furnish 75 per cent of the money, surely the remaining one-fourth would quickly be subscribed by Jacksonville residents. The Moline project will also help with the housing problems for in addition to the hotel rooms it includes a large number of kitchenettes.

## ENGLISH THE DOMINANT TONGUE.

Heretofore French has been the language of diplomacy, and, therefore, it has been the first foreign language taught in the school of all nations. As a result of the world war, however, a change has taken place. Much of the treaty of Versailles was written first in English and then translated into French. Recognizing the fact that English is becoming the language of diplomacy as well as of commerce, the

Danish and Swedish governments have substituted that language for French as the first foreign tongue to be taught in public schools. Undoubtedly other nations will pursue a similar course with the certain result that English will become the one world-wide language.

## DEATHS

Dial

Thomas J. Dial of Waverly, age 74, died yesterday morning at the county home. He entered the home about a week ago and was in failing health at that time but was able to be about until Tuesday. A physician was called so no inquest will be necessary.

The decedent is survived by a number of relatives who live in and near Waverly. Burial will be made in Waverly.

## Tendick

Mrs. Sibilla Tendick one of the oldest residents of Jacksonville, passed away at her home on West College avenue yesterday morning. The deceased came to this city from Germany when she was sixteen years of age and had made her home here since that time. She was born June 8, 1836 and was eighty-six years old at the time of her death.

She was united in marriage to Godfrey Tendick in 1854. To this union five children were born. Her husband preceded Mrs. Tendick in death 26 years ago, and also one son who died 37 years ago. Mrs. Tendick had been an active member of the German M. E. church for many years. She was a kind and loving mother and friend and her death will mean a great loss to her family and the community in which she lived for so many years.

The surviving children are Mrs. Jennie Porten, Ed Tendick, Mrs. Clara Hoover, all of Jacksonville and John S. Tendick of Canton, Ill., and grandchildren, Mrs. Arthur Rehfeldt of St. Louis; Clarence Porten, Bloomington; Elmer Porten, Chicago; Earl Hoover, Jacksonville; Elizabeth and John Tendick, Jr., Canton, and Frank Tendick, Springfield, Mass. Also one brother, William Tendick and one sister, Mrs. Kate Kastrop, living in Jacksonville.

The funeral services will be held Friday afternoon at 2 o'clock at the residence, 502 West College avenue with Rev. M. L. Pontius officiating. Interment will be in Diamond Grove cemetery.

## FIVE INJURED AS AUTO TURNS TURTLE

A Studebaker six, driven by Miss Dorothy Walls of West College avenue, turned over 12 miles from here on the state road Tuesday near midnight, badly bruising and scratching the five passengers who were returning from Springfield. The party included Misses Dorothy and Blanche Walls, sisters, Grace Tilton, Lucien Lebow and Frank Redshaw, students at Illinois College. It is remarkable that some of the passengers were not seriously injured.

The accident occurred as the machine was turning a corner. It ran into a ditch for a short distance and in trying to regain the road the driver turned too sharply, causing the car to turn completely over smashing the top and windshield. The occupants were caught underneath but succeeded in crawling out. They were brought to Jacksonville by Merle Cain and Mr. Maloney, who were returning from Springfield.

John Ebrey was in the city yesterday from Franklin.

## AT THE GRAND TONIGHT

If you wish to see the real thing in the way of careful stage appointments, and attention to detail to the smallest degree, do not fail to witness the performance of "Twin Beds" which is scheduled to appear at the Grand this evening.

In addition to the massive and complete scenery, you will see stage furniture that looks as if it was just from the hands of the factory; carpets, curtains and draperies so spick and span, that they are the envy of every careful housekeeper. Nothing worn or tawdry about the whole production. When you see "Twin Beds" you feel that the management has taken particular pains to please you. An evening with "Twin Beds" is a delight. Don't miss it.

## "TWIN BEDS" AT THE GRAND TONIGHT

"Twin Beds" Salisbury Field and Margaret Mayo's Festival of Laughter, renowned from one end of the country to the other as one of the emphatic standing comedy hits, will be presented at the Grand, Thursday evening, Oct. 6th.

"Twin Beds" is a jovial, rollicking farce, clean as a high wind, swift moving in its action, brilliantly slangy and vivid in its dialogue and adroit and sure in its characterizations.

The story is built around the difficulties of three couples living in a fashionable apartment house, with most of the neighbors desirable and undesirable, always underfoot. They first achieve neighborliness and then have it thrust upon them, they finally move to escape it, but without remarkable success.

## PROPERTY OWNER MUST HAVE A CARE

New State Law Defines Liability In Cases of Liquor Sales or Manufacturer.

One provision of the Illinois prohibition enforcement act gives the owner of property where liquor is sold a certain amount of liability. Under the law it becomes the special duty of the state's attorney to bring about enforcement and State's Attorney Robinson has indicated his intention to use his best efforts in that direction.

Recently the state's attorney made a clear summary of the law for publication, with the end in view of acquainting the public with the general provisions of the law. Yesterday Mr. Robinson called special attention to a paragraph in the act which places a certain responsibility upon the owner of a building or vehicle where liquor is manufactured or sold. The property is subject to a lien for any fines or costs assessed in a liquor case where the violation has been within the property.

Another provision makes it a comparatively simple matter to secure an injunction against the property where a case of illicit liquor selling or manufacturing has been proven.

## Language of Law

The paragraph of the law to which special reference is made above reads as follows:

"If a person has knowledge or reason to believe that his room, house, building, boat, vehicle structure or place is occupied or used for the manufacture or sale of liquor contrary to the provisions of this Act and suffers the same to be so occupied, such room, house, building, boat, vehicle structure or place shall be subject to a lien for and may be sold to pay all fines and costs assessed against the person guilty of such nuisance for such violation and any such lien may be enforced by action in any court having jurisdiction."

## EASTERNERS FOUND LOW FOOD PRICES HERE

Residents of Newark, N. J., Make Complimentary Reference to This City, Which They Visited Enroute From Los Angeles.

An article which appeared recently in a Newark, (N. J.) newspaper refers to this city as "a community where the high cost of eating seems never to have bothered the inhabitants." The article referred to gives an account of an auto trip made by Ernest D. and Harry O. Finch of Newark from Los Angeles, Calif., to their home city. This is the clipping from the eastern paper:

A community in which a complete Sunday dinner from soup to homemade apple pie can be had for forty cents has been discovered by two Newark youths who have just completed a motor trip across the continent. The community where the high cost of eating seems never to have bothered the inhabitants is Jacksonville, Ill., which is on the Blue Jay highway between Kansas City, and Indianapolis, and its Newark discoverers Harry O. and Ernest D. Finch Jr., sons of Mrs. and Mrs. Ernest D. Finch this city. Mr. Finch Sr. is the superintendent of the agents in this state for the Mutual Life Insurance company of New York.

The youths, aged nineteen and twenty-one years, arrived home at noon yesterday, having made the trip from Los Angeles, in twenty and a half days. The trip yesterday morning from just outside Bell Air, Md., to this city, a distance of 128 miles thru four states, took half a day.

The entire Finch family went to Los Angeles some time ago. Mr. Finch Sr. and his wife returning East by rail, leaving the two boys to make the trip with a large revenue passenger car.

Leaving Los Angeles, all signs of paved road disappeared at Canon Pass in the Sierra Nevada Mountains. The trip was started by the way of the National Old Trails highway, thence to the Santa Fe highway. A day and a half was spent at Grand Canyon, where a trip thru the canyon was made on mule back. Thence they toured thru Flagstaff, Ariz., to Springerville in the same state, a town 100 miles from a railroad, remembered by the tourists for its prevailing price of fifty cents a gallon for gasoline.

The total cost of the trip, including food, lodging, gasoline, oil, repairs, two new tires and the seven spoons, was \$356.96. The longest continuous run made was from Wheeling, W. Va., a distance of 228 miles. Both breakfast and luncheon were gathered en route and the total time was eleven and one-half hours.

The car in which the trip was made was remarkably free from dirt and dust on its arrival at Newark, due possibly to a terrific rain storm encountered just out of Cumberland, Md. Leaving Newark it was intended to go over to New York in order to make yesterday's record of states visited five. The total mileage for the trip was 3,365.5 with an average of twelve miles per gallon of gasoline.

Each of the six is a deep-water fish. All live in water of more than 150 feet in depth and some as deep as 600 feet. Nothing except such a cataclysm of nature as the Alaska flow could have brought them to the surface, Dr. Jordan said. Rhyacanthias Carlsmith ranged at least 1,000 feet below the ocean's surface, he added.

## POSTAL CLERKS WANT MUSIC

MINNEAPOLIS, Minn.—(By A. P.)—Faced by the possibility of losing their loaned phonograph, from which the music proved to be a boon for the postal clerks who worked on the "graveyard" shift from 7 p. m. to 3 a. m., the night workers thru the aid of postmaster, E. A. Purdy, have decided upon a plan to buy the instrument and insure permanency of the music.

Working to the rhythm of harmonious melodies since August 12, the men became so accustomed to the music that thought of separation from it created pronounced depression among the workers. From questionnaires examined and results obtained, it was proved that music lifted the burden of the night workers and made them more efficient.

The music craze is not a temporary fad of the men, Postmaster Purdy declared, adding that its efficacy in keeping up the morale of the night workers has been recognized by Postmaster General Will Hays. While at Washington in conference with Mr. Hays, Postmaster Purdy, informed his chief of the results of the questionnaire sent to every one of the sixty or more clerks on the shift. The consensus of opinion was that:

Less effort was necessary to keep steadily at work.

The men were in a better frame of mind.

At the end of the shift, the men felt less tired.

Lesser amount of waste time.

Talking and chatting was practically dispensed with.

Brightened faces reflected the benefits of the music.

Warries, financial or domestic, were kept out of the mind.

Proving the valueableness of the phonograph, the machine was not used several nights. A decided change was apparent, according to the foreman's report to Mr. Purdy. When the machine was playing, the men were thru with work before the duration of the shift, while on two of the nights which the instrument was taken away, overtime work was necessary, the foreman reported.

### BLACKHEADS GO QUICK BY THIS SIMPLE METHOD

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of calomel powder from your druggist—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. The calomel powder and the hot water have just dissolved them. Pinching and squeezing blackheads only open the pores of the skin and leave them open and unsightly—and unless the blackheads are big and soft they will not come out, while the simple application of calomel powder and water dissolves them right out, leaving the skin soft and the pores in their natural condition. You can get calomel powder at any drug store and if you are troubled with these unsightly blemishes you should certainly try this simple method.

### A. J. JOHNSON, JR. DIES WEDNESDAY NIGHT

Alexander Man Passes Away at Our Savior's Hospital—Funeral Arrangements Have Not Been Made.

A. J. Johnson, Jr., of Alexander, died at Our Savior's hospital at 12 o'clock Wednesday night. He had been ill for several weeks and death resulted from diabetes.

Decedent was the son of Mr. and Mrs. A. J. Johnson of Alexander and was 39 years of age at the time of death. He was married to Miss Ethel Campbell who preceded him in death several years ago. He was again married to Miss Katie Hagen of Murrayville who survives, together with six children, Mary, Ellen, Edward, James, Robert and Jeanette.

He also leaves his parents and three brothers, John of this city and William and Frank of Alexander.

Mr. Johnson was a member of the Church of the Visitation at Alexander and of the Modern Woodmen. He was a man highly respected in the community in which he lived. His funeral arrangements will be announced later.

and Swedish governments have substituted that language for French as the first foreign tongue to be taught in public schools. Undoubtedly other nations will pursue a similar course with the certain result that English will become the one world-wide language.

### DEATHS

**Dial**  
Thomas J. Dial of Waverly, age 44, died yesterday morning at the county home. He entered the county home a week ago and was suffering from a heart ailment. A physician was called so no request will be necessary. The decedent is survived by a number of relatives who live in and near Waverly. Burial will be made in Waverly.

**Tendick**  
Mrs. Sibilla Tendick one of the oldest residents of Jacksonville passed away at her home on West College avenue yesterday morning. The deceased came to this city from Germany when she was sixteen years of age and had made her home here since that time. She was born June 8, 1836 and was eighty-six years old at the time of her death.

She was united in marriage to Godfrey Tendick in 1854. To this union five children were born. Her husband preceded Mrs. Tendick in death 26 years ago, and also one son who died 37 years ago. Mrs. Tendick had been an active member of the German M. E. church for many years. She was a kind and loving mother and her death will be missed by all who knew her.

### CARL MAYS WINS FIRST GAME FOR THE AMERICANS

omission on his part and the ball was called for and thrown to first, whereupon Umpire Moriarty declared him out.

The Yankees' three runs came in the first, fifth and sixth innings. Miller opened the game with a single to center and took second on Peckinpaugh's sacrifice. Douglas to Kelly, Miller scored when Ruth hit the first ball pitched to him to center field. It was a hot drive and brought great cheering from the crowd.

The Yankees got men as far as second base in the second and fourth innings. In the fifth Mc Nally opened with the only double of the game, was advanced to third on Seang's sacrifice, Douglas to Kelly and stole home.

The third run came in the sixth. Peckinpaugh singled to short. A passed ball by Snyder allowed him to gain second. After Ruth struckout trying to put the

### NOVEMBER SET FOR BUDGET CAMPAIGN

Five Organizations Will Take Part—Committee Appointments Considered at Meeting Last Night.

The executive committee for the Budget Campaign held another session at the Chamber of Commerce rooms last night. This committee includes H. M. Capps, chairman; H. A. Perrin, vice chairman; Harold Welch, secretary; W. H. Marchand, Rev. M. L. Pontius, M. C. Hook and H. J. Rodgers.

The conference last night was with special reference to committees and several tentative committees were appointed. The members are to be consulted today before announcement of committees is made.

The representatives of five organizations which will take part in the project have decided to use the words "Budget Campaign" in referring to this united effort. The organizations which will have place in the campaign from Nov. 11 to Nov. 25 are the Salvation Army, Social Service league, Red Cross, Anti-Tuberculosis league and the Near East Relief.

### Chamber of Commerce News Notes.

A meeting of the sub-committee appointed with reference to the court house basement rest room project held another meeting at the Chamber of Commerce rooms Wednesday night. The committee has secured J. K. C. Pierson to draw a number of plans for the proposed improvement and to make an estimate of cost. These plans will then be submitted to the several organizations interested before the whole matter is discussed.

ball out of the lot, Bob Meusel hit to left-center, scoring Peckinpaugh. Meusel drew up on third for what looked like a perfect three bagger but was called out for not touching first base. After this inning only one Yankee reached third base.

The Giants threatened the home plate twice. The best chance to score came in the fourth inning with Frisch on third and only one out. He had reached first on a single to right, stole second and took third on Young's sacrifice. Mays to Pipp. He was left there as Kelly struckout. Emil Musel grounded out Ward to Pipp. The other chance came in the sixth inning on Frisch's triple and after two were out. Young however was not equal to the occasion going out. Ward to Pipp. The Giants had men left on second in the first and second innings. One of the surprising things about the game was the fact that while the Polo Grounds will accommodate nearly 39,000 persons the official attendance figures showed but 30,203 persons present.

The upper grandstand to which admission could only be obtained by purchase of tickets at the gates after they were opened, showed large stretches of empty seats at the extremes of the stands. This was easily accounted for however, when it became known that the police orders to keep non-holders from the vicinity of the field after one p. m. had been strictly enforced with the result that thousands of late comers who might readily have been accommodated were kept beyond the reach of the box offices.

### Enthusiasm Lacking.

As for the temper of the crowd it was remarked that some degree of enthusiasm witnessed at most world series contests seemed lacking. There was a ready enough explanation of this, too, when it was recalled that this crowd was one divided against itself with probably something like a fifty-fifty split between Giant and Yankee rooters. From this it need not be taken that the usual roaring outbursts of gleeful fans were not in evidence when things took favorable turns for one side or the other, but simply that at no time did stands and bleachers arise as one man to shout the shout of the joyful. Something like half the crowd didn't feel much like shouting.

For another thing and possibly this was the more compelling reason—the game lacked really tense situations. It was close throughout but the Yankees, as the score shows, took an early lead and not only were they never headed but never was there a chance on the part of the Giant rooters to cheer a possible tied score or a successful rally. The Yankee rooters made plenty of noise when the game was ended spectacularly by a flashing double play with Peckinpaugh and Ward as the leading figures.

The Giant fans had held hope of a score up to this point, for Frisch got a clean single to start the inning and visions of a rally were indulged in. Frisch, however, was forced by Young and then Kelly's hit to Peckinpaugh was tossed by him to Ward forcing Young. Ward then wheeling and throwing to first, getting the batter and ending the game. The only other double play of the afternoon was made by the Giants in the first inning. There was one out when Bob Meusel forced Ruth at second, Frisch to Rawlings, and was himself thrown out at first.

In base running the Yankees outspurred the Giants two to one. McNally's two steals could not be matched by the Giants, whose only pilfered base was earned by Frisch. Pipp, of the Yankees tried to go to second but was thrown out. Snyder to Rawlings. Four sacrifices were made in the game. Two of them, by Peck and Seang figured in two of the Yankees' three runs. Others to sacrifice were Pipp and Young. Douglas gave four bases on balls, the men who received the passes were Ward, Ruth, Pipp and

Schang; his passes did not figure in the scoring.

Mays was very steady. He gave no passes, but hit one man, Rawlings, the ball striking the Giant second baseman on the leg.

An analysis of the pitching shows that May in nine innings pitched 86 times, an average of 9 1/2 an inning. Twenty eight of these were balls, 18 were strikes and 9 foul strikes. Twenty resulted in infield outs and five in outfield flies; the five hits of the Giants and a hit batter account for the remainder.

Douglas sent the ball to the plate 103 times in the eight innings he worked, almost thirteen to the inning, thirty nine times pitching balls, putting over 35 strikes and six foul strikes and being touched for three fouls which did not count as strikes. Fourteen infield outs, one outfield out and the Yankee's five hits make up the remainder.

The Yankees' other two hits were made off Barnes, who pitched 22 times—ten balls, seven strikes, one foul strike and two infield outs.

Altho Douglas was credited with a lost game, he struckout six to Mays' one. Ruth fell a victim twice in his last two trips to the plate. On one of these occasions there was a man on second. Peck, Ward, Schang and Mays whiffed once each.

Schang also was struckout by Barnes.

The only Giant to fan was Kelly who cut the air with a man on third.

An odd incident of the game was that not a Giant outfielder made a putout.

With an attendance of 30,203, the official announcement gave the gate receipts as \$103,955, a new record. Of this the players' fund gets \$52,022.15, the clubs a total of \$35,348.10 and the National Commission \$15,584.75. The only other case of the gate receipts at a world's series game running over \$100,000 was the sixth game of the Cincinnati-Chicago series in 1919, when the receipts were \$101,768.

Some 400 and odd newspapermen gathered to report the series, said to be the largest number ever assembled for this purpose. The great majority came from the eastern section. New York, New Jersey, Pennsylvania, Connecticut and Massachusetts being the most heavily represented.

### PEACE TREATIES ARE OPPOSED BY TEXAS SENATOR

Sheppard Says They Emphasize Our Desertion of Humanity

(By The Associated Press)

WASHINGTON, Oct. 5.—The peace treaties with Germany, Austria and Hungary were before the senate all of today, with a speech of six hours by Senator Sheppard, Democrat, Texas, in opposition to ratification and an address by Senator Moses of New Hampshire, a Republican "irreconcilable" in favor of the treaties.

Senator Sheppard discussed proceedings of the league of nations, which, he declared the United States should join, and Senator Moses in favoring ratification declared the treaties were the consummation of the struggle to maintain the independence of the United States.

"It cuts us loose at once and I hope forever," said Senator Moses "from that body of death known as the league of nations."

The New Hampshire senator opposed American representation on the allied reparations commission, altho, he said, it was no secret that Secretary Hughes favored such representation. He added, however, that he did not share the fears expressed by Senator Borah of Idaho, another Republican "irreconcilable," that the treaties would force the United States into the league.

"I can see no reason why any 'irreconcilable' should withhold his assent to its ratification," he said.

Senator Sheppard declared, "the only honorable course for this nation is to ratify the treaty of Versailles and join the league of nations."

"The league," he added, "had already justified its existence. I cannot vote for any enactment, I said Senator Sheppard, "in once more asserting our isolation from the league, we emphasize our desertion of humanity."

### MINE WORKERS IN FAVOR OF FORMING POLITICAL PARTY

Would Make Coalition with Farmer Organization

(By The Associated Press)

INDIANAPOLIS, Ind., Oct. 5.—The United Mine Workers of America ended their biennial convention here today with the adoption of a resolution favoring the formation of a new political party, combining the forces of organized labor and the organized farmers.

The convention also selected Indianapolis for the seat of the next convention to be held in January, 1924, and elected Alexander Howat, president of the Kansas miners, and William Mitch, secretary of the Indiana miners as delegates to the international mining congress that meets next year in England.

The union's political declaration asked Samuel Gompers to call a conference of officers of all unions affiliated with the American Federation of Labor and of all farmer organizations to affect a possible political coalition of the organization. The resolution was adopted by an almost unanimous vote and without discussion.

As a preamble to the resolution a committee report endorsed the non-partisan league government of North Dakota, declaring that

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath and know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, riping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable or sound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

## FUNERAL OF CHILD IS HELD AT BLUFFS

Infant Son of Mr. and Mrs. George Brown Laid to Rest Tuesday Afternoon—Other Bluffs Items.

Bluffs, Oct. 5.—Funeral services for Leroy Myron Brown were held at 2 o'clock p. m. Tuesday at the home of his parents, Mr. and Mrs. George Brown in the presence of a number of sorrowing relatives and friends, the Rev. E. T. Palmer, pastor of the M. E. church officiating. Music was furnished by Mesdames Corbridge and Arthur Pyle with Miss Vera McCaleb at the piano. The many beautiful flowers were in charge of Misses Helen Masterson and Margaret Vanlier. The bearers were Masters Lee Korty, Donald Moore, Milburn Shaw and Marvin Hill. Interment was made in the Green cemetery.

**Obituary.**  
Leroy Myron Brown passed away at his home at 5 o'clock Monday morning after an illness of one week aged 1 year, 5 months and 2 days.

He is survived by his parents, Mr. and Mrs. George Brown, two brothers, Bernard and Howard and a number of relatives who are grief stricken over the untimely death of baby Leroy. He had never been a strong child and one week ago when he was stricken suddenly it soon became apparent that the Angel of Death was hovering near and all that medical skill and loving hands could do was done in vain.

On Monday morning he fell asleep in Jesus to await the resurrection morn leaving a vacancy in the home that never can be filled.

Mrs. Jesse Lankford has purchased the Morton home in the south part. Consideration \$3,100. She has also purchased Thomas Meehan movie theater. Consideration \$8,000.

Mr. and Mrs. Theo White, after a two week's visit with their daughter, Mrs. W. J. Hartnady have returned to their home in Beardstown.

Mrs. Frances McCullom who has been making an extended visit with her sons in St. Louis is expected to return home Wednesday.

Mrs. E. G. Thomas of Keokuk was called to Bluffs Monday by the death of little Leroy Brown.

## HER OWN MONEY TO BE PRESENTED TONIGHT

## Big Audience at Northminster Church Hears Miss Amy Ellerman, Miss Vera Barstow and Calvin Cox in EDISON Tone-Test

In a test of direct comparison, made yesterday at Northminster Church, before a large audience, the New Edison scored a complete and convincing triumph.

Amy Ellerman, the famous contralto, sang in direct comparison with the Re-Creation of her voice by the New Edison. To every ear, there was no difference between her living voice and her Re-Created voice.

This is the most drastic phonograph test known. No other phonograph has ever sustained it. No other phonograph has even attempted it.

The New Edison's marvelous performance of yesterday vindicates everything that has been said or claimed for its perfect realism.

Amy Ellerman stood on the stage next to a shapely Chippendale cabinet. She began to sing. Her golden notes soared over the auditorium, bringing all under its magic spell.

Halfway through her song, she suddenly stopped singing. The New Edison, at her

side, took up her song—and continued it alone.

Singer and phonograph thus alternated, throughout the song.

The only way the audience could be sure which was singing, was by watching Miss Ellerman's lips—so exactly like the living voice was the Re-Created voice.

Vera Barstow made the same test of comparison with the Re-Creations of her violin selections. Again the same result—there was no difference between the Re-Created performance and the living performance.

Proof was piled upon proof! Evidence was massed on evidence! The end of the concert found the audience absolutely and completely convinced, through its own personal experience, that there is no difference between an artist's living performance and its Re-Creation by the New Edison,—that listening to the New Edison is, in literal truth, the same as listening to the living artists.

# The NEW EDISON

*"The Phonograph with a Soul"*

Only one question can still bother your mind. This question we now answer.

The instrument used in yesterday's tests was NOT a special model. It was an Official Laboratory Model, taken from regular stock. Every Official Laboratory Model in our stock is guaranteed to sustain the same test of direct comparison with living artists.

You can have an Official Laboratory Model in YOUR home. You can own an instrument which will do everything done yesterday in the test. Come in. Hear the wonderful Official Laboratory Model for yourself. Learn about our Budget Plan, which puts our Official Laboratory Model into your home for no more than you would "pay down" for a talking machine.

### FINE RECITAL AT NORTHMINSTER

Was Given by Visiting Artists in Connection With Exhibition of Edison Phonograph in the Re-Creation of Their Work.

Probably a number of those who attended the concert given at Northminster church Wednesday evening by Miss Amy Ellerman, contralto, Miss Vera Barstow, violinist, assisted by Calvin Cox, tenor, were puzzled and disappointed to see a phonograph occupying the center of the stage.

They were hardly reassured when announcement was made that the artists were delayed and that re-creations of their work would be played on the phonograph. The golden notes of Miss Ellerman soared from the grille of the New Edison thru the auditorium in all their beauty. Suddenly we heard another voice, or rather the same voice coming from behind the scenes. Miss Ellerman had arrived and was singing in unison with her re-created self.

She continued singing as she walked toward the instrument and the effect of the two voices coming from two different places brought all under its magic spell. From time to time she paused and let her re-created voice go on alone and it was impossible to detect the slightest shade of difference between the recreated and the original voice.

During the evening similar tests were made by Miss Barstow and the beautiful tones of her violin were re-created with the utmost fidelity by the Edison.

The proof was convincing but if anything further was needed it was during singing of one of the numbers when the lights were turned out. It was impossible to tell when the artist was performing and when it was only the Edison alone. The writer was pretty sure he could tell himself but when the lights were turned on again he was surprised to find that the singer was not on the stage at all.

Calvin Cox proved a most capable singer and added greatly to the program of the evening. The program follows:

- (a) LaZingara ..... Donzetti
- (b) He Was Despised (The Messiah) ..... Handel
- (c) When Love Is Kind ..... Old English
- (d) Jenny ..... Pepper

### IMPRESSIVE MARRIAGE SERVICE AT LOUISIANA

Miss Ruth Foreman Is Bride of Mr. John L. Graue—Ceremony at Missouri Temple.

The marriage of Miss Ruth Foreman and Mr. John Lewis Graue was solemnized in Louisiana, Mo., at 2:30 o'clock Wednesday afternoon. The bride is a daughter of John B. Seibert of this city and several Jacksonville people were guests at the wedding.

The very beautiful ceremony was solemnized in the reception room of the Masonic temple. There before a floral altar the vows were taken, Rev. Mr. Foreman, pastor of the Presbyterian church officiating. The bride was given away by her father. She was attended by Miss Grace Seibert of this city as maid of honor and Miss Thurman and Miss Graue of Louisiana as bridesmaids. Louise Muchhausen was the ring bearer, carrying this marriage emblem in a bouquet of roses.

The reception room of the Masonic Temple is handsomely furnished and for this marriage event there were very beautiful floral decorations. The platform where the musicians were stationed was banked with palms and at either side was a row of vases filled with roses. Lattice work entwined with smilax formed the archway and the candles burning on both sides completed the altar effect.

Before the service began Miss Mary Elizabeth Fride sang a group of songs with violin obligato and piano accompaniment. After the ceremony and congratulations refreshments were served for the guests in the adjoining dining room, which had also been handsomely decorated.

Mr. and Mrs. Graue slipped away by automobile to either Clarksville or Bowling Green and there took the train for a brief wedding journey.

The bride who is a daughter of John B. Seibert of this city, has spent practically all her life in the Foreman home in Louisiana. She was educated in the schools there and has held a prominent place in social and church circles. Mr. Graue is also a well known resident of Louisiana and holds a responsible business position.

A great many gifts bore testimony to the esteem of relatives and friends. Lloyd Seibert, brother of the bride, and a florist arranged the decorations, which like all other appointments for this wedding event, were especially handsome.

Among the guests at the wedding were Mr. and Mrs. J. B. Seibert, Mr. and Mrs. Henry Muchhausen, Misses Louise and Marie Seibert of this city.

## The foolish man who built his house on the sand

He gave an example in folly which anybody can understand.

It isn't so easy, however, to sense the mistake of trying to build the body on foods which lack essential nourishment.

Here, again, is a foundation of sand which gives 'way when the test comes.

Many a food that tastes good lacks honesty of nourishment to equal its taste. Thus it tempts the appetite into mistakes that often are costly.

Grape-Nuts is a food which helps build bodily endurance for life's stress and storm. The full nourishment of wheat and malted barley, together with the vital mineral salts so necessary to bone structure and red blood corpuscles, with phosphates for the brain, is retained in Grape-Nuts. The long baking process by which Grape-Nuts is made gives the food a natural sweetness and an unusual ease of digestibility and assimilation.

Served with cream or milk, Grape-Nuts is fully nourishing, and whether eaten as a cereal at breakfast or lunch, or made into a pudding for dinner, Grape-Nuts has a particular delight for the appetite. Sold by grocers.

## WHITE HALL MAKING ARMISTICE DAY PLANS

Greene County City Will Observe Armistice Day With Fitting Program—Harry Chinn Dies at Mitchell, S. D.—Other News Notes.  
 White Hall, Oct. 4.—Plans looking to the fullest observance of Armistice Day are under way as the result of the action of Mrs. J. N. Winters in interesting Mayor H. W. Roodhouse to bring the subject before the regular session of the city council tonight. There is no doubt as to the favorable action of the city council and the fullest co-operation of patriotic bodies and the citizens in general. It is proposed to hold a benefit dinner in Legion hall, followed at 2 o'clock by a parade something after the style of the original street fair of 1890 that remains fresh in the minds of those who had a hand in that great event. This parade is to be headed by

## SALE OF BROOMS SHOWS DECREASE

New Methods of Building Cause Part of Decrease—Vacuum Sweepers and Other Devices Also Help.

OKLAHOMA CITY, Okla.—(By A. P.)—The man who stayed away from home last year necessary this year, was only half so likely to be greeted with the sweep of a broom handle, as he was last year, according to the first survey ever made of the broom corn industry by C. B. Alguire, statistician of the hay, feed and seed division of the U. S. Bureau of Markets and Crop Estimates.

His review shows that the per capita sales this year were about 40 per cent of normal and that the total sale of brooms amounted to slightly more than sixty per cent of normal.

The broom corn industry has moved slowly this year, compared with several years past, a general stagnant condition existing, which was not expected at all when the season for the 1920 crop opened.

The outlook was then comparatively favorable, Mr. Alguire says, with the carry over of 1919 estimated as being one of the smallest on record, and the new crop which later proved to be 32,000 tons, compared with a six year average of 48,000 tons, in the United States, gave every indication of being the smallest crop in years.

The survey covered the entire broom corn industry of the United States. These conditions of "bear" forecasting should ordinarily have caused an extremely active market for a raw product, he says, but almost the opposite was the case. Farmers have hauled their straw to market and in many cases refused to sell it after they had hauled it in, saying this price did not compensate for the labor involved.

Increased use of substitutes, too many factories operating, improved methods of building, the decrease in the use of horses and the increase in street paving, new methods of sanitation; curtailment of consumption due to shutting down the larger railroad shops, cotton mills, smelters and other industries, non-employment, forcing the ultimate consumer to economize, and changes in methods of buying, all had their effect on depressing the market according to this report.

Stocks of broom corn on hand July 1, reported to the department of agriculture, were considered heavy, the report says, about 30,000 tons being carried over from the preceding year—enough broom corn to supply an entire world demand for seven and one half months. The average yearly consumption of broom corn for a five-year period, from 1915 to 1920 was shown to be 50,000 tons. Of this amount, the state of Oklahoma produced 14,000 tons, according to the statistician of the state board of agriculture.

In obtaining the report, questionnaires were sent out to 1,600 representative corn-products manufacturers, according to Mr. Alguire, and to factories in every state, from the largest to the smallest "buckeye" shop being included. It is believed the department said, that possibly 75 per cent of the country's production is taken by these firms.

The medium grade brooms are in much greater demand than those of any other quality, according to Mr. Alguire's report. In fact, he says, fifty per cent of the demand is for common.

New devices, suction cleaning machines, and many other methods of modern house cleaning have been adopted and supplanted the broom to some extent, although it was believed that the broom had not lost out entirely, the report stated.

The month of May, actual sales reported to the department represented slightly more than 60 per cent of normal consumption. There were 161,480 dozen brooms sold in May by the firms making reports for the department, and the total sales were estimated at about 200,000 dozen brooms. The average for the past six years as compared and compiled for the department was 333,000 dozen brooms a month.

What is driving the broom from the home? According to Mr. Alguire's report push brushes of rattan, bamboo, and other material now are being used for rough work, and also are used in street cleaning.

Many modern dwellings and apartments have installed vacuum appliances and hardwood and tile floors have come into increased use. This had stimulated the use of oil mops and brittle brushes that yearly, has been cutting down broom sales.

In the smaller cities and in the country the decreased con-

## H. S. CAFETERIA OPENED WEDNESDAY

The high school's new cafeteria was the scene of much activity Wednesday noon when the first luncheon was served there. Over one hundred and fifty students and faculty members took luncheon at the cafeteria and every one pronounced the menu delicious, the service excellent and the institution of the cafeteria a wonderful thing.

Miss Ella Newman, head of the Domestic Science department, is in charge of the cooking and the serving of the meals. She is assisted by the girls in the second year domestic science classes who have charge of the serving and a cook who is in the kitchen.

The equipment for the cafeteria is modern and complete in every way. From the electric dishwasher, steam tables, coffee and tea urns, to the huge refrigerator, the equipment is up-to-date and the cafeteria will no doubt prove a great thing for all of the high school students.

### Winter Comfort Demands Heat--But You Want More Than That

**WE** must have heat in winter, and it is logical that we want comfort---and convenience as well. Neither is possible without a substantial trustworthy heating plant.

The higher grade of warm air furnace, carefully and scientifically made and installed does give you this solid comfort and convenience---without disquieting thoughts of fuel consumption and expense of repair bills.

Dependable satisfaction in heating simply means that in cold weather you can depend on your home being well heated and that your fuel bills will be less than those of your neighbors who may have an inferior heating apparatus.

It also means that such inconvenience as coal dust, dirt and ashes will be strictly confined to the room in the basement set aside for your furnace.

We hope to tell you, in a series of advertisements, just what a warm air furnace consists of and to explain to you exactly why the WEIR warm air furnace excels all others.

### AMERICAN LEGION NOTES

A former so idler, jobless and with a wife and five children to support, had 50 offers of employment when he became known to Kansas City citizens. Sleeping on the floor because he had no bed, the service man was roused early by a rush of calls from the American Legion's employment bureau where he registered only the day before.

Whether to wear brown derbies or corn-stalk shirts is a question puzzling the members of the Iowa delegation to the American Legion meeting at Kansas City this month. All are agreed that they could wear something distinctive. More than 1,000 Iowans will attend the convention.

One hundred aliens manning the shipping boards' fleet at Camp Eustis, Va., have been discharged and their places filled with unemployed American seamen following representations of the American Legion of the state. The fleet now consists of 320 vessels in charge of skeleton crews and 300 more ships will be added soon.

An aerial express for delegates and visitors to the national convention of the American Legion at Kansas City will be operated by members of the Minneapolis Minn. Aero club. They will use their own planes for the trip.

Holding that his opportunity for service was greater in his new capacity, Clarence W. Seymour, Hartford, Conn., sent in his resignation as state senator immediately after he had been elected commander of the American Legion of Connecticut. The Legion forbids its officials to hold political elective office.

To assist the few surviving members of the Confederate Veterans' association in Tennessee to attend their annual reunion at Chattanooga, 20 men of Nashville post of the American Legion devoted a day each to raising a fund to defray their expenses.

Five thousand wireless stations forming a net work from coast to coast are receiving nightly bulletins of information concerning the forthcoming national convention of the American Legion. A sending set with a range of 1,500 miles flashes the news from Kansas City at 7:30 and 8:30 o'clock each night and members of the Western Radio company, most of them Legion men of any wireless experience, pick up the stories for their local newspapers.

From eight to ten cents a day for meals and a bed is the rate in a hotel just opened in Des Moines, Ia., by Sheriff W. E. Robb, who does it for jobless ex-service men in addition to other duties. Only cards supplied by the American Legion and Trades and Labor assembly of the city will admit guests.

Gas on the battlefield and gas in the hold of an immigrant ship are of different quality, according to war veterans of both experiences. The American Legion employment bureau, New York, on receiving a call from the immigration authorities of the port for "veterans of combat service" sent 12 overseas men to the docks. They were to don gas masks and fumigate immigrant ships, the work to last a month. Declaring they had faced death once the men gave up and started looking for another job. Five hundred ex-service men who played their old part as movie supers at Mammoth, N. Y., however, liked it.

Harold Wells, Petersburg, Va., serving his country during the world war, was not receiving enough from the government to keep him. Numbers of his American Legion post raised \$1,000 in a mass meeting over which the mayor presided. They set him up in business and with their Woman's Auxiliary, pledge to buy only of the veteran in his tobacco and book shop. Now he has paid off the \$1,000 debt and is making a comfortable living.

Ward A. Ponsy, navy veteran of the war, is hiking from Hampton, N. J., to Pittsburgh, Pa., 400 miles, to get a job being held for him. He is drawing a two wheel cart containing tools and clothing. The local American Legion post sent his wife and five children on a train ahead of him. He had been out of work for months.

### The New Price Of The Chevrolet "490"

**Is \$25.00 less than the introductory price of this model, fully equipped, in 1915---costs less today, but represents far greater value than ever.**

It has been improved in construction and equipment. Figured on a basis of the value of equipment added and improvements made, Chevrolet "Four Ninety" is sold today at a price lower than ever before.

This also holds true of other Chevrolet models. Model "FB" touring car is today listed at \$160 less than its introductory price three years ago. Chevrolet Model "G" and Model "T" trucks, also, have reached low price levels that have not maintained for years.

Judged by price alone, any Chevrolet model is of greater value today than ever before. But this is not a fair comparison, since all Chevrolet models have been improved in construction, design or equipment.

The purchaser today secures the advantage of this added value.

In this way an automobile costs less to buy than in 1917, and it is generally of better value because of better equipment or construction.

**The Chevrolet is by far the Best and Cheapest Light Car in America. Your model is Here now on our salesroom floor.**

STOCK MARKET UNDER  
CONTINUOUS SELLING  
By Associated Press.  
NEW YORK, Oct. 5.—The  
stock market was under contin-  
uous selling pressure today traders  
paying little attention to improv-  
ed industrial conditions, easier  
money rates and the buoyancy of  
foreign exchanges.  
These factors were encounter-  
ed in a measure by reports  
adversely affecting Mexican Oil  
properties and the mire increased  
weakness of sugar and tobacco  
shares due to their more doubtful  
dividend status. Leaders were  
freely offered from the outset but  
became heavy in the final hour.  
Mexican Petroleum made an ex-  
treme decline of 6 points. Pan-  
American were increasingly  
heavy and seasonal rails, steels,  
equipments and motors lost 1 to 3  
points.  
Liberty and victory bonds  
again were heavily dealt in most-  
ly at gains, exceptions being the  
Liberty 3 1/2s and victory 4 1/2s. Other  
domestic issues were irregular  
but international were firm.  
Total sales (par value) \$17-  
250,000.

WHEAT, CORN AND  
OATS PRICES DROP

(By The Associated Press)  
CHICAGO, Oct. 5.—All deliver-  
ies of wheat, corn, oats and rye  
swept downward today to a new  
low price record for 1921. Large  
visible supply totals proved to be  
a heavy handicap on values.  
Wheat closed weak 3 1/2 to 4c net  
lower with December \$1.12 1/2  
to \$1.11 1/2 and May \$1.16 to \$1.16 1/2.  
Corn lost 1/2 to 3/4c, and oats 1/2  
to 3/4c; in provisions the outcome was  
unchanged to 15c down.

General liquidation took place  
in the wheat trade and at the  
close the market was at the  
bottom level of the day, 8 1/2 to 9 1/2c  
off compared with yesterday's top  
figures. Bears put special stress  
on the big stocks at Kansas City  
and on the possibility of ship-  
ments being made from there to  
Chicago. Besides, loadings were  
said to have increased in the  
northwest and a larger move-  
ment of the spring crop within a  
few days was predicted. Declines  
in the price of corn and oats were  
largely due to the action of  
wheat. The descent of corn was  
somewhat checked by improve-  
ment of shipping and industrial  
calls. Provisions weakened in  
sympathy with grain notwith-  
standing an upturn in the value  
of hogs.

CASH GRAIN  
REPORT

By Associated Press.  
CHICAGO, Oct. 5.—An ad-  
vance of 1c was noted today in  
the basis for cash corn. There was  
no change in the basis for cash  
wheat or cash oats.

Cash sales here were 45,000  
bushels of wheat, 240,000 bush-  
els of corn and 195,000 bushels  
of oats. The Atlantic seaboard  
advised of 750,000 bushels of  
wheat worked for Europe, most-  
ly Canadian. The Pacific Coast  
said two cargoes of wheat were  
sold to the Orient. Vessel room  
was chartered here for 350,000  
bushels of corn at 1 1/2c to Buffalo  
Georgia Bay.  
Car lot receipts: Wheat, 72;  
Corn, 470; Oats, 77.

## CAPITAL CITY GOLFERS SUNDAY

Douglas Cadwallader and Noah Dixon Will Play Marcy Osborne and Leo Flood—Results of Yesterday's Games.

Announcement was made last night that Douglas Cadwallader and Noah Dixon two of the best golf players of Springfield would be here Sunday to play Marcy Osborne and Leo Flood winner and runnerup in the city golf tourney.

Cadwallader is well known to local players and is one of the strongest golfers in Central Illinois. He is present champion of the Springfield Country club. Dixon was runnerup in the Dunn park tournament this summer. Play will start at 1:30 o'clock and with favorable weather a large crowd will no doubt witness the play.

In the play yesterday Bob Mullens won from Fred Randall. Robert Capps won from R. Y. Rowe and C. W. Wright won from W. W. Wright. The Camp—C. Y. Rowe match was not completed and will be finished today.

Today Ed Tomlinson will play Robert Capps and C. J. Wright will play the winner of the Camp—C. Y. Rowe match.

## STATE AMERICAN LEGION SOON TO MEET

Jacksonville Delegation Will Leave Monday Morning for Decatur—Fine Program Is Planned.

Local members of the American Legion post are looking forward with interest to the state convention which will be held Monday and Tuesday of next week at Decatur. The delegates sent by the post will be W. T. Harmon, who is the commander, and John W. Larson. R. Y. Rowe is a member of the executive committee representing the 20th congressional district.

Among those who will attend the convention are: J. C. Walsh, H. J. Goodrick, M. D. Ator, Hayden Walker, G. T. Ledgerwood, C. T. Stegford, H. E. Woodman, H. A. Williamson, George Merwin, Homer Bradney, Donna Baird, Morrison Worthington, Hugh P. Green and Reaugh Jennings.

The local post will take a drum corps with them and if weather conditions are favorable they will drive to Springfield Monday morning and take the interurban from there to Decatur.

The members of the post and their friends in Decatur have made very extensive preparations and indications point to an attendance of 15,000. Sangamon county is planning to send a delegation of 1,000 and a still larger delegation will come representing the numerous posts which are in existence in Chicago.

## WAYNE GARD ENJOYED STAY IN ENGLAND

Jacksonville Young Man Enroute to Burma, Writes in Interesting Vein.

Wayne Gard is now well on his way to Rangoon, Burma expecting to arrive at that port October 10th. A Jacksonville friend of Mr. Gard recently received the following interesting letter telling of his visit in England.

"I had the most pleasant kind of voyage on the S. S. Albania and was not at all seasick. The ship is a steady one, and we did not encounter any storms. Among the passengers on this trip were, Dr. E. R. Zaring who spoke at the Methodist centennial in Jacksonville last month, and Dr. C. E. Welch, manufacturer of Welch's grape juice.

"The one can hit only the high places in England in ten days. I have seen the things I cared most about. Most of the time has been spent in London. There I visited, among other places, Westminster Abbey, the Parliament buildings, Tower of London, Hyde park, Regent park the British Museum, the National and Tate galleries, and St. Paul's cathedral.

"On my first night in London I saw John Drinkwater's 'Abraham Lincoln' presented by an English cast, and directed by the author. Tho it was disappointing in some details, I think the chief points in Lincoln's character were well brought out. While in London I saw several other popular dramas, including Lord Dunsany's new comedy, 'Ir,' which is being played at Ambassador's theater.

"Last Saturday I made my pilgrimage to Canterbury, which certainly is a place worth visiting. Monday several of us went to Oxford, where we stayed for a day and a night. Yesterday we came on to Stratford-on-Avon. In the afternoon we took a bus to Warwick, and went thru Warwick castle. The return trip was made by foot—a distance of eight miles—along the beautiful Avon valley. We stopped all along the way to pick wild flowers and blackberries. One would think the sixth of September rather late for berries, but the vines were still full of green ones.

"This morning I visited the house where Shakespeare was born, and then came on to Liverpool, by way of Birmingham and Chester. We are due at Rangoon October 10th."

## ALEXANDER WOMAN'S CLUB HELD MEETING

The regular meeting of the Alexander Woman's club was held Wednesday afternoon at the home of Mrs. W. H. Schott, with a large attendance of members and guests. The program of the afternoon was as follows:

Roll call—Anecdotes of Lincoln.

Paper, "Trails and Roads"—Miss Nettle Gray.

Sketch of Lincoln and Douglas—Miss Althea Hall.

Paper, "The First Republican Convention"—Mrs. J. T. Little.

Paper, "The Debates of Lincoln and Douglas"—Mrs. J. W. Robertson.

A social hour followed the program and at this time the hostess served dainty refreshments. The open meeting of the club will be held next Wednesday evening at the home of Mrs. Charles M. Strawn. The next regular meeting will be on Wednesday, Oct. 19, at the home of Mrs. J. T. Little.

## The Parent-Teacher Association of Franklin school will hold a bazar and market Nov. 1st.

Silas Rentchler and George Dietrick of Concord transacted business in Jacksonville yesterday.

## DICK KERR BESTS GROVER ALEXANDER

White Sox Pitcher Holds Cubs to Five Scattered Hits—Sox Get Ten Blows Off of Alex.

Chicago, Oct. 5.—Dick Kerr was a better pitcher than Grover Alexander today, and the Chicago Americans shutout the Chicago Nationals 2 to 0 in the first game of the series to decide the city championship. It was the first meeting of the two clubs since 1916. Kerr allowed his opponents only five scattered hits, three of which were made by Barber while the National League's ace was touched for ten safe blows, most of which were bunched.

Johnson's woman in the third inning followed by a single by Strunk sent the first run across the plate, while the other run counted as the result of an error. With Hooper on third in the sixth inning, Mostil grounded to Terry who threw to O'Farrell in time to nip Hooper at the plate, but the Cub catcher dropped the ball.

The attendance was announced at 16,543, and the gross receipts \$14,365.14. The commission's share was \$2,164.77 and the players' share \$7,326.22. \$4,844.15 went into the clubs' share, which is to be divided equally at the end of the series.

PHONOGRAPHS AND RECORDS

## The Most Popular Girl in Town

If you want a party in your parlor every night ask "Dad" to get you a Brunswick. The latest song hits, the newest dances, all the old favorites everyone loves—think how delightfully you could entertain your friends!

We make it easy to own one. There are Brunswicks in so many different styles that you will find one which suits you at the right price.

Our convenient monthly plan takes care of the payments. No home need be deprived of the pleasure of a Brunswick.

## Musicians Recommend The Brunswick

Because it renders true tones, conveying sustained notes of mellow quality and mighty crescendos of volume with equal facility. A remarkable achievement due to the Brunswick Method of Reproduction, embodying the *Ultima* and the *Tone Amplifier*—patented Brunswick features.

## Compare Records

You may think there is "no difference" in records. That the same piece is alike on all records. But just for the joy of it, hear your favorite popular "hit" or classic as interpreted on a Brunswick Record and you will realize the pleasing difference Brunswick recording makes.

## Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.
